

System 25 Stands

- Adjustable height (height is to underside of track)
- Add track height to stand height to give height to top of rollers
- Track should normally be supported every 1.5m, at junctions and in the middle of bends

Stand Height to underside of Conveyor (Adjustable)	450mm Wide		600mm Wide	
	Code	Price	Code	Price
560 - 920mm	LNCT025	£60.12	LNCT026	£70.74

Side Guards

- Can be supplied with heights up to 50mm above the top of the rollers - please state height required

Side Guards	Code	Price
Per 1 metre Length (per side)	LNCT043	£17.82
Per Bend (both sides)	LNCT044	£83.40

End Stops

- Can be supplied with heights up to 50mm above the top of the rollers - please state height required
- Priced per end stop for all track widths

End Stops	450mm Wide		600mm Wide	
	Code	Price	Code	Price
	LNCT033	£35.58	LNCT034	£35.58

System 25 90° Bends

- 90° bends fitted with parallel rollers as standard
- Taper rollers can be fitted at extra cost
- All sizes are fitted with rollers at 75mm pitch
- Bends 900mm inside radius
- See opposite page for specification of 'light', 'medium' or 'heavy duty' conveyor track in order to establish bend type

Roller Type	450mm Wide		600mm Wide	
	Code	Price	Code	Price
Light	LNCT027	£696.54	LNCT028	£744.24
Medium	LNCT029	£740.92	LNCT030	£777.00
Heavy	LNCT041	£796.92	LNCT042	£845.84

Ball Transfer Sections

- 25mm diameter steel balls set at 75mm pitch in sheet steel
- Capacity per ball – 55kg
- Supplied as square sections for slotting into System 25 Track (multiples supplied for longer transfer sections)
- Overall capacity per section suitable for use with light, medium and heavy duty track
- Prices per section are in addition to standard conveyor track (ball tables fit within the side frame in place of the rollers)
- Other sizes available on request

System 25 Ball Transfer Sections		
Section	Code	Price
450 x 450mm	LNCT031	£405.76
600 x 600mm	LNCT032	£663.26
