

# Flammable Liquids Handling

General Workshop Equipment Flammable Liquid Storage

## Plunger Cans

- Safety plunger can dispenses a fixed amount of liquid as required
- Easy to use one handed operation
- On release, the surplus liquid drains back into the can
- Flame arrestor preventing flashback.
- Easy filling.
- Stove enamel safety yellow BS 356.

Description	Capacity	Code	Price
Plunger Can - Dispenses a small amount to a small brush	300ml	70	£35.23
Plunger Can	500ml	40	£43.31
Plunger Can	2.5litre	41	£46.40
Plunger Can	5.0litre	42	£51.53

## Swab Pails

- Designed for use when a cloth needs to be soaked
- Spring loaded automatic dasher automatically closes when the cloth is removed, leaving the liquid beneath the plate
- Flame arrestor protecting the contents
- Lids are fitted as standard
- Material is BSC Terneplate BS 1449 1B 1972.
- Perforated plates are pure tinned.

Description	Litres	Height	Diameter	Code	Price
Swab Pail / Bench Can	2.0	140mm	178mm	29	£45.33
Swab Pail / Bench Can	4.0	140mm	240mm	30	£51.53
Swab Pail / Bench Can	8.0	260mm	240mm	31	£59.77

## Laboratory Can / Safety Tilt Can

- Laboratory Can (left) for use in dispensing liquids into smaller containers
- When placed on a shelf or other similar position the safety tap, when released is self closing, the can is also self venting.

Description	Capacity	Code	Price
Laboratory Can	25 litre	61	£108.15

- Tilt Can (right) for use in dispensing liquids into smaller containers
- 25 litre storage swivels on base
- Tap - designed to be pressure vented and protected by flame arrestors.
- A unique inlet air vent is fitted to allow free pouring.
