

## Traditional Smoking Shelters

More companies and organisations now operate a No Smoking policy.

Smokers are relegated off site often at the entrance or exits of the building.

Smokers' litter is normally the result.

The Shelter can provide a controlled designated protected smoking area and help keep the environment tidy.

- Easy Access In and Out of smoking shelter
- Integral gutters (front or rear)
- Open areas at roof and floor level to aid rapid dispersal of cigarette fumes for users comfort
- Robust all weather construction
- Shelter height: 2.1m
- Roof panel corrugated galvanised steel
- Metal back panel grey only

Model with Metal Panel Back

Model with Perspex Panel Back

- Feet are adjustable, supplied pre-drilled ready for floor fixing into a concrete surface or concrete pad

Front Perspex panel is standard on all shelters
