AB5 Access Platform

Features:

- Capable of carrying two people.
- Full height perforated panel for extra security. Keeps the operators fingers away from the mast and chains.
- Spring loaded fork clamp to lock round the heel of the forks.
- No chains or loose bolts.
- Gate locking mechanism. When the platform is lifted, the gate cannot be opened.
- Hand hold bar keeps operator within the confines of the platform when being raised or lowered, preventing hands being trapped against racking.

- Design suitable for fitting to most fork lift trucks.
- Strong welded steel construction, finished in safety yellow.
- Punched steel floor gives anti-slip surface and drainage facility.

This Access Platform has been manufactured to conform to Health and Safety Executive Guidance note PM28 Complete with Certificate of Conformity and issued with a Serial Number.
